III : Detailed Machines list

3. 200BPH WASHING/FILLING MACHINE

1) Picture.

2) Specifications

Machine size	3425x800x1650mm
Packing size	3500x1000x1700mm
Rated power	3000W
Rated pressure	0.6Mpa
Air exhaust	400L/m

3) Features

This machine is specially designed to fill the purified water and the distilled water, mineral water and other bacteria free liquids. The equipment is applied with 5GAL bottles (bottles of 3 or 6 gallon can also be applied, but the sample bottle shall be provided.) As the equipment integrates the processes of bottle washing, filling, lid mounting, lid pressing and finished product delivering, it is the ideal choice of water plants.

For operations, the equipment can be configured with the following machines: auto cap removing machine, bottle external washer, auto loader, shrinking machine, light inspection equipment and other equipments.

1. Water-shortage protection: when the level of the water tank is lower than that of the float switch, the equipment will be automatically stopped;

4. Stress filling in the enclosed environment

5. Filling time adjusted between two levels—0.1 Second and 1 Second. Ensuring the precision for filling volume.

6. In the washing station, the bottle is conveyed by the cylinder.

9.. More additional function for choice: There are many additional functions. Customer may choose to take these functions per their need.

10. Extend Conveyor Made by Customer Request

Term of Payment :

30% Down Payment

65% Setelah unit mesin siap dikirim (Sebelum Dikirim)

5% Setelah Running Tes di Lokasi (max.1 bulan setelah tanggal pengiriman)

Delivery Time : max.90 Days after Down Payment
